**FOREWORD (GB) / FÖRORD (S)**

## FOREWORD (GB)

Group

01

Page

9

This catalogue contains parts for our cars in the 740 series 1991 -.  
For USA and Canada markets, see separate catalogue.

**PRODUCT PLATES**

Placing and code keys for those product plates which contain important information for ordering parts are illustrated in the following pages.

**ABBREVIATIONS**

Explanation of the abbreviations used in the catalogue are to be found in Group 02.

**CHASSIS NUMBER**

The first chassis number for each model year is as follows:

**1991-**

740 4DRS CH 513900-

740 5DRS CH 321400-

The Parts catalogue for the 740 series 1991- can be ordered from  
Volvo Group Support AB  
Publication Stores  
SA A 5520  
S-405 08 Göteborg  
Order number

Denna katalog upptar reservdelar för våra personvagnar i 740-serien fr.o.m. 1991 års modell.  
För marknaderna USA och Canada, se separat katalog.

**SKYLTAR**

Placering och kodnycklar för de skyltar som är väsentliga vid reservdelsbeställning är illustrerad på följande sidor.

**FÖRKORTNINGAR**

Förklaring till använda förkortningar i katalogen finns i Grupp 02.

**CHASSINUMMER**

Första chassinumret för varje årsmodell framgår av nedanstående tabell:

**1991-**

740 4DRS CH 513900-

740 5DRS CH 321400-

Reservdelskatalog 740-series 1991 - kan beställas från

**Foreword (GB)****Group 03, number register containing all parts in the catalogue.**

The parts are in numerical order, with references to the appropriate group and page.

Parts numbers are shown as follows:

907861-9 = Stocked by Volvo Parts Corporation.

8884106-0 = Stocked only in country of assembly. Not stocked by Volvo Parts Corporation.

253295 = Not stocked by Volvo Parts Corporation.

(264612) = Superseded part.

Standard parts, e.g. screws, nuts etc. (function group 1100-1159) are taken up only once, without group and page references, are marked with \*.

**Förord (S)****Grupp 03, nummerregister innehåller alla artiklar i katalogen.**

Artiklarna är i nummerordning och är hänvisade till respektive grupp och sida.

Artikelnumren redovisas enligt följande:

907861-9 = Lagerföres av Volvo Parts AB.

8884106-0 = Lagerföres endast i respektive monteringsland. Lagerföres ej av Volvo Parts AB.

253295 = Lagerföres ej av Volvo Parts AB.

(264612) = Artikeln är ersatt.

Standardartiklar, t.ex. skruv, mutter m.m (funktionsgrupp 1100-1159) är endast upptagna en gång och utan hänvisning till grupp och sida, är märkta med \*.

Sida  
63**Foreword (GB)**

**Group 04, number register of new parts, containing all part numbers entered in the catalogue since the previous edition.**

New parts in Volvo Parts Divisions product range are indicated by an asterisk in the NR column.

In the first edition of the catalogue, group 04 contains new parts only.

The parts are arranged in the catalogue in groups, and within each group they are arranged in order of page and position number.

Standard parts, e.g. screws, nuts etc. (function group 1100-1159) appear first, and are taken up only once, without group and page references.

(For further information, see catalogue instructions, Group 05)

**Förord (S)**

**Grupp 04, nummerregister nya artiklar, innehåller alla artikelnummer som är införda i katalogen sedan föregående utgåva.**

Nya artiklar i Volvo Reservdelars sortiment är markerade med fylld stjärna i NR-kolumnen.

Vid första utgåvan av katalogen innehåller grupp 04 endast nya artiklar.

Artiklarna är ordnade i kataloggrupper, inom varje grupp är de sorterade i sid- och positionsnummerordning.

Standardartiklar, t.ex. skruv, mutter m.m (funktionsgrupp 1100-1159) förekommer först och är endast upptagna en gång och utan hänvisning till grupp och sida.

( För ytterligare information, se kataloginstruktion Grupp 05 )

81**Foreword (GB)**

This is a condensed catalogue instruction and deals with the more elementary questions that can arise when reading a parts catalogue, and is relevant to both microfiche and paper catalogues.

If you require more detailed information, you can obtain it from our Publication Stores under the following publication numbers:

|                  |      |         |        |
|------------------|------|---------|--------|
| Catalogue manual | (S)  | Pub.No. | 212534 |
| "                | (GB) | "       | 212535 |
| "                | (F)  | "       | 212536 |
| "                | (D)  | "       | 212537 |
| "                | (E)  | "       | 212538 |
| "                | (I)  | "       | 212539 |
| "                | (P)  | "       | 212542 |

**Förord**

Kataloginstruktionen är förkortad och behandlar de mest elementära frågor som kan uppstå i samband med katalogläsning. Instruktionen är gemensam för microfiche- och papperskataloger.

De som önskar en mer detaljerad beskrivning, kan beställa denna på följande artikelnummer:

|                |      |           |        |
|----------------|------|-----------|--------|
| Kataloghandbok | (S)  | Artikelnr | 212534 |
| "              | (GB) | "         | 212535 |
| "              | (F)  | "         | 212536 |
| "              | (D)  | "         | 212537 |
| "              | (E)  | "         | 212538 |
| "              | (I)  | "         | 212539 |

83**The composition and use of a parts catalogue.****Paper catalogue**

1. Main register. Identify relevant catalogue group-page number.
2. Title page for catalogue group-turn page.
3. Catalogue group index (illustrated). Identify subgroup-page number.
4. Subgroup index. Identify section-page number for part concerned.
5. Catalogue section. Trace part number via illustration.

*Alternative method*

6. Catalogue index. Identify catalogue group-subgroup and page number. Go on to point 4.

**Fiche catalogue**

1. Identify relevant catalogue group via microfiche title strip.
2. Put microfiche reader. Identify relevant catalogue group-2nd image row.
- 2a. Move to following image (vertical direction) catalogue catalogue group index. Go on to point 3.
- 2b. Or...identify subgroup via fiche index-page number. (Page number sequence in columns, see top row of images.) Go on to point 4.
3. Catalogue group index (illustrated). Identify subgroup-page number. (Page number sequence in columns, see top row of images.)
4. Subgroup index. Identify catalogue section-page number.
5. Catalogue section. Identify part number via illustration.

*Alternative method*

6. Catalogue index. Location (all fiche): last image in right-hand column. Identify catalogue group and subgroup. Go on to point 4.

**Reservdelskatalogens struktur och sökvägar****Papperskatalog**

1. Registerblad. Sök berörd kataloggrupp - sidnummer.
2. Försättsblad för kataloggrupp - vänd sida.
3. Kataloggruppindex (illustrerat). Sök undergrupp - sidnummer.
4. Index undergrupp. Sök katalogavsnitt - sidnummer för berörd artikel.
5. Katalogavsnitt. Via illustration sök artikelnummer.

*Alternativ sökväg*

6. Katalogindex. Sök artikelns kataloggrupp - undergrupp och sid nr. Forts. 4.

**Fichekatalog**

1. Via microficherubrikerna - sök artikelns kataloggrupp
2. Sätt fichen i läsaren. Sök berörd kataloggrupp, 2:a ficheraden.
- 2a. Gå till efterföljande ficheruta - kataloggruppindex (lodrät sökriktning). Forts. 3.
- 2b. *Alt.* Via ficheindex sök undergrupp - sidnummer. (Sidnumrering är kolumnvis, se övre ficheraden.)
3. Kataloggruppindex (illustrerat). Sök undergrupp - sidnummer. (Sidnumrering är kolumnvis, se övre ficheraden.)
4. Index undergrupp. Sök katalogavsnitt - sidnummer.
5. Katalogavsnitt. Via illustration sök artikelnummer.

*Alternativ sökväg*

6. Katalogindex. Placering (alla fiche), höger kolumn sista rutan. Sök katalog- och undergrupp. Forts. 4.

Group  
Grupp  
**05**Page  
Sida  
85**Catalogue page with clarifications**

(When it regards items such as the Numerical Register, Group 03 and the Numerical Register for New Parts, group 04 see the Foreword for the relevant group.)

**Page heading**

1. Catalogue designation.
2. Catalogue section designation.
3. Catalogue group. First digit catalogue group, second digit subgroup.
4. Page No. In sequence throughout the whole of the catalogue.
5. Subheading. Abbreviations (see group 02) and footnote numbers can appear.
6. Quantity column identification letters. A corresponds with quantity column A, B with column B, etc.

**The columns**

7. Pos No. Reference number between the illustration and the parts list.
8. Part No. Can appear in *italics*, see Group 03.
9. Qty columns A-E. X = state requisite length/qty. Dimensions and lengths in Notes column.
10. PS (Parts Status) column. Codes, see group 02.
11. Description column. Parts preceded by a point or points is included in the major component.
12. Notes column. Complementary information.
13. Superseded part number.
14. Footnote, at bottom of page.
15. SR (Stock Recommendation) column. Movement rate in scale of 1-6. 1 representing very fast moving.
16. Star. New part, listed in Group 04.
17. Administrative code. Note The final digit is the issue number 0 = new catalogue.
18. Designation plates. See Group 01.

**Katalogsida med förklaringar**

(Övriga textsidor som nummerregister grupp 03 och nummerregister nya artiklar grupp 04, se respektive grupps förord).

**Rubrikinformation**

1. Katalogens beteckning.
2. Katalogavsnittets benämning.
3. Kataloggrupp. Första siffran kataloggrupp, andra undergrupp.
4. Sidnummer. Löpande genom hel katalogen.
5. Underrubrik. Förkortningar (se grupp 02) och fotnotsiffra kan förekomma.
6. Rubrik antalskolumn A-E. A korresponderar med antalskolumn A, B med B, osv.

**Kolumninformation**

7. Pos nr. Referensnummer mellan illustration och text.
8. Artikel nr. Kan förekomma i *kursiv* text, se grupp 03.
9. Antalskolumn, A-E. Antal per enhet. X = erforderlig längd/antal. Mått och volymer i anmärkningskolumn.
10. PS-kolumn (PS = Parts Status). Koder, se grupp 02.
11. Benämningsskolumn. Benämning som föregås av punkt ingår i överordnad artikel.
12. Anmärkningskolumn. Kompletterande uppgifter.
13. Ersatt artikelnummer.
14. Fotnot, nederst på textsidan.
15. SR-kolumn (SR = Stock Recommendation). Lagerförslags-siffror i skala 1-6. 1 = mest frekvent artikel osv.
16. Stjärnmarkering. Artikeln är ny, förekommer i grupp 04.
17. Administrativt nr. OBS Sista siffran är katalogens löpande ändringsnummer, 0 = ny katalog.
18. Olika skyltar för modell- och chassinr m m. Se grupp 01.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | 207            |  |
